Bark Busters Home Dog Training  
2229 Mariposa Avenue  
Boulder, CO 80302

Dear Katrina,

I wanted to thank you so much for helping with our dogs. I have always admired people who have well behaved dogs. I have been lucky in the past to have rescued dogs with good temperaments, but having my grandson in the house has made me realize the importance of being in control.

The Bark Busters method is definitely easy to employ. It is so logical. I love your take on the dog's way of thinking. Your sense of humor makes the training fun and interesting. I could see progress in my dogs immediately. What impressed me the most was months after our initial training session. I was having a problem with Ziggy growling at my grandson. I called you and received a quick response. Your explanation of the issue from Ziggy's point of view made perfect sense. The solution was easy and the problem was solved.

I am a believer. I will continue to recommend you to my clients whenever I feel behavior issues need to be addressed.

Sincerely,

Ellen Miller, DVM, MS, Diplomat ACVIM (Internal Medicine)
