I had Katrina Mitchell, from Bark Busters, come to our house to help with our two Golden Retrievers, Togher and Buddy. We were having trouble getting them to stop rushing the door barking every time the door bell would ring. The Bark Busters training method was truly amazing! Once we went through the process and Katrina taught me how to communicate with my dogs so that they would understand, we had the problem corrected in less than 15 minutes!! I am convinced that this is a great training method for many issues dog owners deal with on a regular basis and I recommend it highly!

Dear Katrina,

Thank you so much for introducing me to the Bark Busters training method. What a difference it has made in my pets (and myself)! After explaining the Bark Busters philosophy, observing my pets and showing us a few simple training exercises, we were on our way to good behavior.

I liked the way you explained the importance of my role in the training process. I also enjoyed the fact that the training takes place in the home setting where a majority of the behaviors originate. And lastly, I liked the ease and simplicity of the actual training sessions.

It is nice to make recommendations based on positive personal experiences. I would not hesitate to suggest Bark Busters to my clients.

Sincerely,

Joan Primeau D.V.M.

Dear Katrina,

I just wanted to let you know how impressed I am with the Bark Busters training method. I have personally witnessed some great transformations. Difficult animals have made incredible turnarounds with your system.

It's impressive to see the great results achieved by such a logical and straightforward method. Particularly notable is the in home, personalized one-to-one approach and the natural, non-physical technique. It's great to know that whenever my clients need behavioral support, Bark Busters will be there to assist them with the lifetime guarantee.

I feel completely confident in recommending Bark Busters Home Dog Training to all my clients. I see application of your system for both the difficult behavioral cases as well as for those clients who simply want to create clear communication and a stress free relationship with their canine companions.

Thanks again for your effort to make my job easier. We'll continue to send the troubled ones your way!

Best regards,
